RF CODE

Receiver can be controlled by any one the same remote as factory default; remote control delivered with unique RF code as factory default; if unique-control is needed, please matching the code before installation and using.

Matching code operation

Receiver and Remote Control are coded as default, matching them before using, if unique-control or new-coded-remote is needed, pairing the remote and the receiver as below operation instruction before using:

1. Step 1 : Pressing key "FLASH" and hold on, power on the controller, the load LEDs will be 50% brightness white as responding.
2. Step 2 : Pressing "FLASH" 3times in 3 seconds ,corresponding to the operation, the LED's brightness will change as 25%-10%-back to preset level.
3. Code learning successfully, the receiver only can be controlled by the remote.
4. If not, please re-operate from step 1 to 2.

Clear code operation

Back to factory default, wall-panel can be controlled by any one the same remote control.

1. Step 1 : Pressing key "JUMP7" and hold on, power on the controller, the load LEDs will be 50% brightness white as responding.
2. Step 2 : Pressing "JUMP7" 3times in 3 seconds ,corresponding to the operation, the LED's brightness will change as 25%-10%-back to preset level.
3. Code clearing successfully, the LEDs will be back to the status before the power off, and the receiver can be controlled by any remote control.
4. If not, please re-operate from step 1 to 2.
